

PLANES, TRAINS, & AUTOMOBILES

2010 TRANSPORTATION ROUNDTABLE

The Transportation Roundtable is an educational program offered by SMPS to business development professionals in the Architecture, Engineering and Construction industry. Key leaders/decision makers in the transportation industry will be invited to update attendees on their upcoming design and construction projects and provide business intelligence and market trends for the transportation industry. Our presenters will spend about 5 minutes providing an overview of their organization/structure, upcoming projects and how A/E/C firms should interact with their department. For the next 15 minutes, attendees at the table can ask more detailed questions, as if they were having a one-on-one meeting with the key decision makers from top transportation organizations in DFW. Every 20 minutes, speakers will rotate to another table and begin a new round. Attendance is limited to 55, so register early to guarantee your seat.
